Rasmus Torp

PhD Student · Dartmouth College

New Hampshire, USA

rasmus.torp.gr@dartmouth.edu | rasmustorp.github.io/

Education

Dartmouth College *New Hampshire, USA*
Ph.D. in Computer Science *9/2024 - present*
- Advisor: Adam Breuer

Dartmouth College *New Hampshire, USA*
Innovation PhD Fellow *9/2025 - present*
- Exclusive fellowship for researchers with goals of entrepreneurship and technology transfer of their research.

Technical University of Denmark *Kgs. Lyngby, Denmark*
BSc. Artificial Intelligence and Data *9/2021 - 8/2024*

Professional Experience

SimCorp *Copenhagen, Denmark*
Student AI Engineer (Time series & RAG Research) *2/2024 – 8/2024*

Research

- My research focuses on AI robustness, privacy, and security. Using techniques from adversarial machine learning, I study how learned representations affect training-data privacy, model behavior, and system robustness. More broadly, I investigate algorithmic mechanisms for making AI systems safer, more reliable, and aligned with human needs.

Published

Rasmus Torp*, Shailen Smith*, Adam Breuer. ”Reducing Information Dependency Does Not Cause Training Data Privacy. Adversarially Non-Robust Features Do.” **(ICLR'26)**, *Awarded OpenAI Cybersecurity grant*

In Preparation

Rasmus Torp, Matthew Keating, Shailen K. Smith, Michael A. Casey, and Adam Breuer. “The Case Against Data Attribution as a Compensation Model for Generative AI”

Rasmus Torp, Shailen K. Smith, Manzi Fabrice Niyigaba, and Adam Breuer. “LLM Personalities are Attack Surfaces.”

Rasmus Torp, Manzi Fabrice Niyigaba, and Adam Breuer. ”Using Foundation Audio-Embedding Models Exposes AI Systems to Gray-Box Audio Adversarial Attacks.”

Adam Breuer, Shailen K. Smith, and **Rasmus Torp**. Multimodality Causes Training Data Privacy Exposure.” (Scheduled for presentation at OpenAI, Fall 2026; Supported by OpenAI Cybersecurity Research Grant

Research Service

OpenAI
Academic Privacy Red Team Member *2026*

NeurIPS
Reviewer *2026*

Awards, Fellowships, & Grants

Dartmouth PhD in Innovation Fellowship
3 YEARS OF STIPEND *9/2025 - present*

Teaching Experience

Spring 2025	**Dartmouth CS 89/189: The Dark Side of AI/ML: Security, Privacy, Fairness, & Interpretability**, Head TA	*Dartmouth College*
Fall 2024	**Dartmouth COSC1: Introduction to Programming and Computation**, Head TA	*Dartmouth College*
Winter 2024	**Statistical Evaluation of Artificial Intelligence and Data**, Head TA	*Technical University of Denmark*
2022-2024	**Introduction to Statistics**, Teaching Assistant	*Technical University of Denmark*

Skills

- Programming Languages: Python, R, SQL, Java, C#, F#.
- Other Technologies: PyTorch, Tensorflow, Azure, Weights and Biases, Scikit-learn, Pandas, Numpy, Hydra, Git, Bash.

Languages

- English, Danish
